'Shrinking Man' Happy After Operation; Thinks Life Assured

MINNEAPOLIS, MINN. (AP)—Hans Nelson, the "shrinking man," smiled Friday over an operation he said has put him "on top of the world."

Two years ago surgeons removed half of his parathyroid glands in an effort to stop deossification of his bones which took 10 inches off his height in five years. Nelson had been shrinking for 15 years until he was a stooped man of five feet.

Auto Trips.

"As far as my life was concerned," Nelson said, "I figured I was gone. I made a try though, and I'm glad of it."

He said he has taken 200 and 300-mile automobile trips this summer, doing the driving himself. His back still is too weak to support his body in strenuous work, but he said driving a car is "perfect" because he gets good support.

Off his earlier calcium diet, Nelson now eats anything. Dr. Richard Johnson at University of Minnesota hospital who handled the case, insists on a quart of milk a day and lots of vitamins A and D to promote bone growth.

Bone Softening.

Dr. Johnson said Friday he was convinced Nelson's case was an example of osteo-malacia, or softening of the bone, and not solely hyperparathyroidism. The symptoms are sometimes identical, he said, but there was no tumor found in Nelson as is present in most cases of hyperparathyroidism.

The parathyroid glands control mineralization of the bones. Overactive, they can drain the calcium and other minerals from the bones and carry it away in the bloodstream, sometimes depositing it in other organs where it "petrifies" them.

"Very Happy."

"This has been a wonderful thing for me," Nelson said of the treatments, "and I have been very happy about the way it has helped other people all over the world."

He said doctors had written him from as far away as South Africa to learn of the treatment. One woman in Africa was helped as he was, Nelson said, by a diagnosis made by her doctor through the mails.

Nelson, now standing five feet even as he did at the time of the operation, says he is gaining strength "every day" and looks for the time when he will be even more active.

HOT? TIRED? KOOL-AID MAKES 10 BIG COOL GLASSES 5¢ At GROCERS

HOPEFUL

HANS NELSON.
Shrunk 10 Inches in Five Years.

Museum Attendance High.

TOLEDO, OHIO (U.N.S.)—Attendance at the Toledo Museum of Art last year was greater than the population of the city, giving the museum a ratio of 1.01 persons visiting the museum for each inhabitant.

Can't Spell 'Em Wrong.

ASHEVILLE, N. C. (AP)—Dick Hunnicutt, third grade pupil here, has been spelling an average of 10 words daily for three yearly school terms—and hasn't spelled one wrong yet.

Boy Scouts at their Washington jamboree ate 200 tons of food daily.

Studies Head Tax Payments

Olmsted Plans New System.

Greater possibilities of collecting delinquent old age pension head tax in Polk county were seen Thursday by Byron G. Allen, state old age assistance director.

County Auditor Ernest S. Olmsted, now acting as county treasurer, has notified Allen that a new head tax record system will be set up in the county treasurer's office, Allen said.

This will involve posting all head-tax payments and the assembling of the records of payments conveniently, Allen said. In the past the county record of payments was incomplete.

The head tax was repealed by the Iowa legislature this year but unpaid taxes for past years were not cancelled.

During 1935 a total of 373,000 commercial and industrial enterprises in the United States ceased business.
